

Review Week II
Winter 2020 - Week 10
Elementary Piano - Thursday @ 510p

1. Look at the list of pieces below. Which pieces do you need help with? Which pieces can you play from memory? With music? Put an 'X' under the column your piece falls under. Your list is not "complete" if more X's can be moved over to the next column.
2. If a piece is partially memorized, but not fully memorized, do not put it in the "Completely Memorized" column. Honesty with yourself is important in recognizing what you have accomplished and also what you need to improve upon.
